

Index of Authors in the *Townsend Letter for Doctors & Patients*, 1999-2003

N-Z

**Nair, Vijaya, MD, MS and Hernandez, Vic, MPH**

Haelan951 - A Novel Fermented Soya Beverage and Safe Nutritive Adjunct in Prostate Cancer Therapies, #228, p.98-102

**Namaya, Thom, FNP**

The First Year in Practice (letter), #209, p.110

Objects to Name: "For Doctors and Patients" (letter), #192, p.110

The Rx Is Joy, #214, p.115+

**Nash, Robert A., MD**

Ten Deadly Sins, #214, p.14-16

**Nelson, Steve**

Living with Multiple Sclerosis, #193, p.141-42

Pseudomonas Infection on Indwelling Catheter Eliminated by Magnet Therapy (letter), #189, p.96

**Neubauer, Richard A., MD and Yutsis, Pavel I., MD**

New Frontiers: Anti-Aging Properties of Hyperbaric Oxygen Therapy, #192, p.68-69

**Neustaedter, Randall, OMD**

Smallpox Vaccine: Does It Work?, #235, p.122-27

**Newberry, Peter, MD**

Atrial Fibrillation (letter), #190, p.76

**Newell, John A.**

Unjust Medical License Revocations (letter), #216, p.100

**Nick, Gina L., PhD, ND**

Addressing Human Exposure to Environmental Toxins with *Chlorella pyrenoidosa*, #237, p.28-32

An Apple a Day Keeps...Lung Cancer at Bay?, #234, p.132-33

Assessing Individual Susceptibility to Endocrine Disruption Caused by the Ingestion of Genetically Modified Organisms (GMOs): Part 1, #245, p.116-17

The Capsicum Fruit, #227, p.128-33

Chemoprevention and the Crucifers, #217, p.72-76

Chlorophyll-Rich Foods and Wheat Germ: Preventing Neonatal Intracranial Hemorrhage, Spontaneous Abortion and Miscarriage in At-Risk Women, #222, p.60-64

Consuming Whole Foods in their Raw, Uncooked State: A Personal Interview with Raw Food Nutrition Expert, David Wolfe, #240, p.50-52

Creatine Phosphate Complex and Creatine Serum, #235, p.160-65

Dietary Restriction: A Fundamental Key to Supporting Detoxification and Ensuring Health and Longevity, #232, p.56-60

The Effects of Living, Whole Foods on Women with Fibromyalgia and Rheumatoid Arthritis, #231, p.124-25

Enhancing the Effects of Folate with Whole Foods that Prevent Colon Cancer and Maintain Intestinal Integrity, #239, p.46-50

Hormone Replacement Therapy (HRT), Cardioprotection and Whole Foods, #223, p.47-52

How Vital Nutrients Function Together to Improve Health, #238, p.134-38

Impact of Glutamine-Rich Foods on Immune Function, #225, p.148-54

Stress-Related Eating and Metabolic Syndrome: An Important Cause of Obesity among Women, #233, p.50-52

Supporting Our Children's Physical and Mental Health with Whole Foods, #241, p.163-65

Whole Food Nutrition and Neurodegenerative Disorders, #244, p.52-54+

Whole Food Nutrition for ADHD, #243, p.60-63

Whole Food Nutrition for Depression, Anxiety, and Mood: Coping with Post-Traumatic Stress, #221, p.38-40

Whole Food Protection from Age-Related Cognitive and Neurodegenerative Disorders, #228, p.144-47

Whole Food Protection: Regulating Insulin Levels and Preventing Atherosclerosis, #229, p.42-45

**Nicolson, Prof. Garth L.**

Chronic Fatigue, Aging, Mitochondrial Function and Nutritional Supplements, #240, p.72-75

Protection from Bioterror and Biological Warfare Agents, #221, p.62-67

**Nicolson, Prof. Garth L. and Ngwenya, Dr. Richard**

Dietary Considerations for Patients with Chronic Illnesses and Multiple Chronic Infections, #219, p.62-65

**Nissen, Thomas**

Environmental Toxicity: An Alternative Way of Assessing Heavy Metals (letter), #245, p.98-99

**Noble, Rudolf E., MD, PhD**

Lysozyme Activity of Red vs. Green Grapes (letter), #229, p.142

**Nordstrom, Darick**

NICO (Bone Cavitations of the Jaw) (letter), #203, p.116

**Null, Gary, PhD**

AIDS: A Second Opinion - Part 1, #203, p.58-64

AIDS: A Second Opinion - Part 2, #204, p.82-90

Gary Null Responds (letter), #191, p.80+

The Good News About AIDS and HIV Patients Speak Out, #186, p.18-22

Nursing Home Study, #196, p.36-37

Sugar, Sweet Suicide - Part I, #240, p.86-90

Sugar, Sweet Suicide - Part II, #241, p.86-93

**Null, Gary, PhD and Feldman, Martin, MD**

The Fluoride Controversy Continues: An Update - Part 1, #233, p.58-62  
The Fluoride Controversy Continues: An Update - Part 2, #234, p.72-78  
The Fluoride Controversy Continues: An Update - Part 3, #235, p.117-21  
Vaccination: An Analysis of the Health Risks – Part I, #243, p. 90-96  
Vaccination: An Analysis of the Health Risks – Part II, #244, p.94-99  
Vaccination: An Analysis of the Health Risks – Part III, #245, p.78-85

**Null, Gary, PhD; Rasio, Debora, MD; Feldman, Martin, MD**  
Women's Health Risks Associated with Orthodox Medicine - Part 1, #222, p.80-85  
Women's Health Risks Associated with Orthodox Medicine - Part 2, #223, p.107-10  
Women's Health Risks Associated with Orthodox Medicine - Part 3, #225, p.93-96

**O'Brien, Chris**  
Alkylglycerols: Mysterious Immune Stimulators From the Deep, #213, p.84-86

**O'Connor, Susan**  
Abnormal Gastric Motility (letter), #233, p.117

**Odell, Dr. Stephen, DDS, NMD**  
Cell Wall Deficient Forms and Their Association with Root Canaled Teeth and Cavitational Osteonecrosis (letter), #187, p.116-17+

**Odell, James, OMD, ND**  
Vaccines - What's in the Next Cauldron? (letter), #222, p.113-15

**Olarsch, I.G., ND**  
Research on Edgar Cayce Cancer Work Appreciated (letter), #195, p.104

**Olarsch, I. Gerald, ND and Stockton, Susan, MA**  
Why Are Kids Killing? The Nutrition-Mind Connection, #201, p.108-11

**Parslow, Kathy**  
Interview with Elizabeth Baker, #229, p.75-78

**Paterson, Erik T., MB, ChB**  
Vitamin B3 and Liver Toxicity, #213, p.22

**Patrick, Lyn, ND**  
Nutrients and HIV: N-Acetylcysteine, Alpha-Lipoic Acid, L-Glutamine, and L-Carnitine, #225, p.60-62+

**Paul, Stephen M., PhD**  
Take a Hint From Those With Lactose Intolerance: Limit Problem Foods from Your Diet, #229, p.19

**Payne, Anthony G., NMD, PhD**  
The Green Lung: The Maybe Miracle for Some Lung Disease (letter), #197, p.115  
Living Longer, Yes! But Living Well? (Simple measures that will help keep you healthy), #241, p.94-98  
Treating Congestive Heart Failure: Naturopathic Protocols (letter), #187, p.114-15+

**Payne, Anthony G., NMD, PhD, MD (hon)**  
The Revised Metabolic Oncolytic Regimen for Effecting Lysis in Solid Tumors, #217, p.78-85

**Peat, Raymond**  
Progesterone Content Corrected (letter), #203, p.106

**Pepino, Ralph**  
Learning From Our Elders (letter), #233, p.111

**Perlmutter, David, MD**  
Alzheimer's Disease - A Functional Approach, #228, p.56-62  
Multiple Sclerosis – Functional Approaches, #244, p.66-74  
New Advances in Parkinson's Disease, #216, p.52-57  
New Hope in Post-Polio Syndrome, #197, p.106-08

**Petersen, Inez**  
Mycoplasma and CFS (letter), #187, p.121

**Pettit, Janet**  
Von Recklinghausen Disease (letter), #240, p.111

**Pizzorno, Joseph E., Jr., ND**  
The Best, and Worst, of Natural and Alternative Medicine, #199, p.20-21

**Plechner, Alfred J., DVM**  
Chaos in the Cortex, #237, p.58-61  
Chaos in the Cortex: Adrenal-Immune Disturbance in Pets May Offer Insights for Immune Deficiency Disorders in Humans (letter), #239, p.122-23+  
Unsuspected Adrenal-Immune Disturbances in Pets May Explain Vaccination Failures and Adverse Reactions in Humans, #244, p.100-103

**Plummer, Dr. Nigel; Quilt, Dr. Peter; Crockett, Catherine**  
Fructooligosaccharides (FOS) and other Prebiotics, #239, p.89-97

**Plummer, Nigel, PhD and Wood, Cathryn, BA**  
The Neonatal Immune System and Risk of Allergy - A Delicate Balancing Act, Positively Influenced by Probiotics and Fatty Acids, #223, p.94-98

**Pocock, Robert**  
Kildare Councilors Reveal Alarming High Fluoride Intake (letter), #226, p.109

**Poleszynski, Dag Viljen, dr. philos.**  
Correction Notice: Vitamin C Is Allowed in Norway (letter), #203, p.115

**Pope, Alexandra**

Please List Non-"800" Number for Australian Readers (letter), #186, p.117

**Positive Futures Network**

YES! A Journal of Positive Futures, #207, p.113

**Potter, Gordon E., MD**

Ultraviolet Blood Irradiation: Clinical Results (letter), #213, p.114

Ultraviolet Photo-Oxidation in Treatment of AIDS (letter), #203, p.120

**Pouls, Maile, PhD**

Oral Chelation and Nutritional Replacement Therapy for Chemical & Heavy Metal Toxicity and Cardiovascular Disease, #192, p.82-91

**Prince, Jack, DDS**

Mad Cow Disease, A Case Report Overview of Homeopathic Diagnosis by EAV (Electroacupuncture by Voll), #219, p.44-46

**Prousky, Jonathan E., ND and Seely, Dugald, BSc, ND**

Follow-up Report on the Use of Inositol Hexaniacinate for the Treatment of Achlorhydria: Is a Vitamin B-3 Dependency the Cause of this Patient's Gastrointestinal Symptoms?, #238, p.70-71

**Prousky, Jonathan E., ND and Seely, Dugald, BSc, ND (candidate)**

A Case Report on the Successful Use of Inositol Hexaniacinate for the Treatment of Achlorhydria: Its Possible Mechanism of Action Upon the Central Nervous System and Parietal Cell-Adenosine Triphosphate-Dependent K<sup>+</sup>/H<sup>+</sup> Pump, #235, p.72-5

**Quig, David W., PhD and Bass, Dean, PhD**

Chromium Status and Health: Accurate and Precise Analysis Using High Resolution ICP-MS, #245, p.58-61

**Raible, Hans**

Dupuytren's Contracture--Another Hypothesis, #190, p.76-77

Natural Answers to Hemochromatosis (letter), #215, p.122-24

**Railey, Karen J., CNC**

The Myths of Vegetarianism (letter), #207, p.93

**Rakow, Madeline, PhD Candidate**

Heavy Metals Relationship to Behavioral Disorders (letter), #232, p.131

**Rangwani, Shanti B., MBBS**

Tackling the Chronic Candida Syndrome, Naturally (letter), #216, p.101+

**Ranheim, Philip D., MD**

Justice in the Workplace and Multiple Chemical Sensitivity (ed), #210, p.120-21

**Rasmussen, William**

Rocky Mountain Flu/Fungus (letter), #204, p.124

**Ray, Timothy, OMD, L.Ac**

A Child's Inheritance: The Modern Miasm Identification and Treatment Strategy, #223, p.90-93

The Mitigation of Methyl Mercury Vapor Inhalation and Exhalation in People with Dental Amalgam Fillings, #232, p.86-88

**Redemske, Sandra**

Colostrum May Trigger Hyperthyroid Storm (letter), #191, p.87

**Rehm, Donald**

Stop Toenail Fungus (letter), #186, p.114+

The Truth About Nearsightedness (letter), #187, p.112-14

**Reichenberg-Ullman, Judyth, ND**

Response from Dr. Ullman (letter), #199, p.103

**Reichenberg-Ullman, Judyth, ND and Ullman, Robert, ND**

The ADHD Pressure Cooker - Kids, Teachers, Parents, and Doctors, All Feel the Heat, #205, p.144-47

An Adolescent with PANDAS, #225, p.50+

All in the Family: Two Fascinating Children and How Homeopathy Changed Their Lives, #201, p.28-30

Analyzing Homeopathic Cases Effectively, #199, p.148-51

The Art of Homeopathic Casetaking, #228, p.148-50

The Best of Homeopathy Learning Directly from a Master, #235, p.56-61

The Bowen Technique: The Homeopathy of Bodywork, #208, p.40-41

A Case of Airplane Phobia, #233, p.40-41+

The Case of Challenging Adolescent with Failing Grades, #234, p.122-23+

A Case of School Phobia and Recurrent Stomach Flu, #215, p.44+

A Cold-Hearted Kid, #192, p.52+

A Compassionate Woman Who Cared Too Much, #190, p.26+

Dispelling Myths About Homeopathic Treatment, #237, p.125-27

Dramatic Cure for Depression: A Case of Red-tailed Hawk, #238, p.46-49

Everything in Its Place - The Torment of Obsessive-Compulsive Disorder, #195, p.132-35

The Evolution of a Longterm Case, #229, p.169+

An Extreme Child, #186, p.86+

Graduating from Homeopathic Treatment: Multiple Chemical Sensitivities Following Dental Amalgam Removal, #210, p.34-37

The Healing Power of Homeopathic Animal Medicines - Part 1: From Dog's Milk to the Saliva of a Rabid Dog, #219, p.136-38

The Healing Power of Homeopathic Animal Medicines - Part 2: Barnyard Animals Used as Homeopathic Medicines: *Lac Equinum* (Mare's Milk), #220, p.24-25

Hereditary Homeopathy, #207, p.46-47

Homeopathic Animal Medicines: Part 3, #223, p.54-57

Homeopathic Treatment of Cancer General Considerations, #217, p.163-65

The Homeopathic Treatment of Mastitis, #227, p.134-36

Homeopathy as an Effective Alternative to Antibiotics, #203, p.28-30+  
Homeopathy for Hot Flashes - A Highly Effective Alternative, #232, p.43-44+  
Homeopathy, Healing, and Enlightenment, #202, p.129-31  
Homeopathy: A Highly Effective Alternative to Antidepressants, #213, p.30-31+  
Homeopathy: Highly Effective for Hay Fever, #214, p.58-61  
Homeopathy: The Safest Medicine for Pregnancy and Labor, #222, p.26-29  
A Matter of Life and Death, #209, p.39-40

**Rogers, Sherry A., MD**  
A Simple Treatment for Flu (letter), #244, p.118+

**Ronzio, Robert A., PhD**  
Aging decreases the antioxidant protection in the lens of the eye, #192, p.50  
Antimicrobial properties in honey are due to phenolic acids in addition to flavonoids, #195, p.42  
Antioxidant properties of bilberry may account for its ophthalmic and vasoprotective actions, #192, p.50  
Antioxidant supplements can counteract effects of air pollution on the lung, #190, p.28  
Antioxidants protect cyclists from ozone, #196, p.47  
Borderline vitamin B12 deficiency is common among elderly people, #189, p.31

Botanical antioxidants may counter the toxicity of certain chemotherapeutic agents, #191, p.50  
Children with rheumatoid arthritis experience increased oxidative stress, #193, p.39  
Coenzyme Q10 can improve antibody titers, #197, p.40  
Coenzyme Q10 supplementation increases cellular vitamin E, #197, p.41  
A Combination of sulfur antioxidants and zinc may regulate viral infection, #197, p.41  
Common phenolic acids in food are absorbed by the intestine and are readily bioavailable, #195, p.42  
Culinary spices can inhibit several food-borne pathogens, #191, p.50  
Current trends in nutraceuticals, #190, p.30  
Diabetic patients may not consume enough carotenoids, #190, p.30  
Diabetics may not recycle vitamin C (ascorbic acid) effectively, #190, p.28  
Diets enriched in beta carotene are linked to a decreased prevalence of arterial plaque formation, #187, p.42  
Do high levels of antioxidant enzymes signal an increased risk for cataract and macular degeneration?, #192, p.51  
Does detoxification increase oxidative stress?, #196, p.47  
Does vitamin E promote intestinal integrity during strenuous exercise?, #196, p.46  
Elderly diabetic patients may need more antioxidants, #189, p.30  
Elderly people may not get enough Vitamin B12, #190, p.30  
Extra chromium may help people with adult onset diabetes, #189, p.30  
Extra micronutrients can help normalize blood sugar, #189, p.30  
Flavonoids in tea and onions protect immune cells against free radicals, #190, p.29  
Focus: Potential physiologic roles of simple phenolic ingredients found in foods, #195, p.42  
Folate and vitamin B6 consumption above the RDAs lowers the risk of cardiovascular disease in women, #186, p.82  
Folate deficiency induces DNA breakage in a gene responsible for suppressing the development of tumors, #187, p.42  
Folate, vitamin B12 and vitamin B6 may reverse the progression of atherosclerosis, #186, p.83  
Food consumption can increase oxidative stress in people with adult onset diabetes, #190, p.28  
Fortification of cereal with folic acid at levels greater than the RDA effectively lowers homocysteine in patients with heart disease, #186, p.84  
Free radical damage is linked to the development of type (juvenile) diabetes, #193, p.38  
Gamma oryzanol inhibits chemically-induced tumors in mouse skin, #195, p.43  
Glucosamine, chondroitin sulfate and manganese for knee osteoarthritis, #196, p.47  
An increased serum copper/zinc ratio is associated with oxidative stress in aging and age-related degenerative diseases, #187, p.44  
Increased vitamin E status may lower the risk of cataracts, #192, p.50  
Ingested polyphenols alter gut bacteria to decrease the colonic production of mutagens, #195, p.42  
Lack of improvement in resistance training with gamma oryzanol supplementation, #195, p.43  
Large amounts of lipoic acid improved eye health in diabetic animals, #190, p.30  
Lens vitamin C levels decrease with the increased severity of cataracts, #192, p.51  
Less than one-third of premenopausal women consume supplemental folate regularly, #186, p.84  
Lifestyle change and decreased risk of infections are keys to increased longevity of diabetic patients, #189, p.32  
Lipoic acid can limit oxidative damage to sensory nerves due to arterial ischemia-reperfusion, #196, p.47  
Low serum vitamin E and zinc levels suggest an increased risk of macular degeneration, #192, p.50  
Low vitamin A status reduces natural killer cell activity, #197, p.41  
Lutein, but not lycopene, can interfere with the uptake of beta carotene and decrease its conversion to vitamin A, #187, p.42  
Markers of oxidative stress increase in rheumatoid arthritis, while some antioxidant defenses decrease, #193, p.38  
Microwave cooking can inactivate vitamin B12 in foods, #186, p.83  
Modest supplementation with trace minerals and antioxidants significantly improves immune function in elderly patients, #197, p.40  
Modest supplementation with vitamin E and coenzyme Q10 do not reduce oxidative stress induced by exhaustive exercise, #196, p.46  
Monounsaturates as olive oil may help muscle resist oxidative stress of exercise more than polyunsaturated oils, #187, p.43  
N-3 fatty acids may increase fat breakdown, thus increasing the clearance of serum triglycerides and improving lipoprotein metabolism, #187, p.44  
Neglected native grains are potential global food sources, #186, p.84  
Nitric oxide is further implicated in multiple sclerosis, #193, p.38  
Nitric oxide-related damage is associated with multiple sclerosis and experimental autoimmune encephalomyelitis, #193, p.38  
No association between macular degeneration and dietary antioxidants?, #192, p.51  
Olive oil may benefit diabetic patients, #189, p.32  
Organic acids of fruits and vegetables may limit the bioavailability of folate in foods, #187, p.44  
Patients with rheumatoid arthritis may not consume enough antioxidants, B vitamins and calcium, #193, p.39  
Pau d'arco may induce differentiation in de-differentiated cells, #191, p.51  
Polyphenols can regulate toxin-processing enzymes of the liver, #195, p.42  
Proanthocyanidins can block nitric oxide (NO) production in activated macrophages in vitro, #193, p.39  
Proteolytic enzymes increase nonspecific uptake by gut epithelial cells, #196, p.47  
Selenium and copper may be low in diabetic patients, #190, p.29  
Simple dietary polyphenols inhibit tumor promotion in animals, #195, p.42  
Simple phenolics neutralize peroxyxynitrite, the cytotoxic chemical formed by the free radicals superoxide and nitric oxide, #195, p.43  
Strenuous aerobic exercise increases LDL susceptibility to oxidation long after a marathon, #196, p.46  
Successful influenza vaccination of frail, elderly people depends upon their nutritional status, #197, p.40  
Sulfite, a common food preservative, can be converted to free radicals in the intestine, #197, p.41  
Supplemental riboflavin can correct imbalanced liver metabolism, #189, p.32  
A variety of herbs and spices possess estrogen-like and progesterone-like properties, #191, p.50

Vitamin B6 supplementation may promote coenzyme Q10 production, #197, p.40  
Vitamin C and glutathione may protect coenzyme Q and vitamin E, the "ultimate" antioxidants of the heart, #186, p.82  
Vitamin C may reduce the risk of cataract development, #192, p.51  
Vitamin C with citrus can lower elevated serum lipids, reduce lipid peroxidation and decrease atherosclerosis in hamsters, #186, p.82  
Vitamin E decreased eye damage due to cigarette smoke, #192, p.51  
Vitamin E may decrease pain associated with rheumatoid arthritis, #193, p.39  
What is the long term impact of genetically modified crops?, #191, p.51

**Rosenbaum, Michael, MD**  
Nutritional Immune Modulation Therapies for CFIDS – Part I, #241, p.115-16
