Nooshin K. Darvish, ND, FICT, is a licensed naturopathic physician, fellow in integrative cancer therapies, and Lyme-literate physician. She is one of the very few physicians who completed a two-year medical residency in naturopathic family medicine at Bastyr University. For over 20 years, she has specialized in diagnosing and treating chronic diseases including Lyme disease, cancer, and neurological disorders, using an integrative and noninvasive approach. Dr. Darvish blends the best of Western, Eastern, natural, bioenergy, functional, and anti-aging medicines to diagnose and create effective evidence-based individualized treatment plans. She trains medical and naturopathic doctors nationally and internationally in integrative and holistic medicine. She is the founder and medical director of Holistique Medical Center in Bellevue, Washington. For more info, please visit www.DrDarvish.com or e-mail info@DrDarvish.com.
